(d) In unusual circumstances (*e.g.*, when it is essential to conduct a test outdoors at the scene of an accident), a test may be conducted at a location that does not fully meet the requirements of paragraph (a) of this section. In such a case, the employer or BAT shall provide visual and aural privacy to the employee to the greatest extent practicable.

§ 40.63 Procedures for screening tests.

(b) An individually-sealed mouthpiece shall be opened in view of the employee and BAT and attached to the EBT in accordance with the manufacturer's instructions.

(c) The BAT shall instruct the employee to blow forcefully into the mouthpiece for at least 6 seconds or until the EBT indicates that an adequate amount of breath has been obtained.

(d)(1) If the EBT does not meet the requirements of § 40.53(b) (1) through (3), the BAT shall ensure, before a screening test is administered to each employee, that he or she and the employee read the sequential test number displayed on the EBT. The BAT shall record the displayed result, test number, testing device, serial number of the testing device, and time in Step # of the form.

(2) If the EBT does not meet the requirements of § 40.53(b)(1) through (3), the BAT and the employee shall take the following steps:

(i) Show the employee the result displayed on the EBT. The BAT shall record the displayed result, test number, testing device, serial number of the testing device, time and quantified result in Step 3 of the form.

(ii) Record the test number, date of the test, name of the BAT, location, and quantified test result in the log book. The employee shall initial the log book entry.

(3) If the EBT provides a printed result, but does not print the results directly onto the form, the BAT shall show the employee the result displayed on the EBT. The BAT shall then affix the test result printout to the breath alcohol test form in the designated space, using a method that will provide clear evidence of removal (*e.g.*, tamper-evident tape).
